

# SKID-STEER LOADER SNOWPLOWS

## XBLADE™ & HD Series

*Available in 8' and 9' widths, the FISHER® XBLADE™ snowplow combines exclusive X-BRACING with corrosion-resistant stainless steel moldboards for reliable, high-performance plowing.*

---

*The proven FISHER XBLADE and HD Series snowplows are available with a universal skid-steer loader mounting plate for fast and easy hook-up. The skid-steer's standard auxiliary hydraulic system provides the power to angle the blade. With Fisher Engineering's proven trip-edge design, only the edge trips back when striking an obstacle, leaving the blade upright and plowed snow in front of the blade.*

---

The rugged FISHER® **HD Series** snowplows withstand the rigors of commercial plowing. Available in 7'6", 8', 8'6" and 9' widths, the HD Series has been the choice of plowing professionals for many years.

A universal skid-steer loader mounting plate makes hook-up fast and easy. The skid-steer's standard auxiliary hydraulic system provides the power to angle the blade.

See the separate FISHER plow brochure or visit our website – [fisherplows.com](http://fisherplows.com) – for additional information on the XBLADE™ and HD Series snowplows.

	Blade Width	Blade Height	Blade Gauge	Trip Springs	Ribs	Angling Rams	Plowing Width (Full Angle)	Approx. Weight (Less Mount)	Wear Shoes	Optional Cutting Edge	Min. Skid-Steer Rated Operating Capacity (SAE)
